

To Whom It May Concern:

Peggy Dye & Associates has been using Capps Customs, Inc. for more than twelve years to produce draperies for hotels we design throughout the United States. We expect good quality products, which are manufactured to our specifications, as well as installations that meet our delivery dates.

The professionals at Capps Customs meet our expectations and they are competitively priced. I appreciate their attention to detail, and their eagerness to make this particular part of our job easier. I have enjoyed working with them in the past, and look forward to a continued successful relationship in the future.
